Course Description
This course provides an introduction to youth development (ages 6-18) principles utilizing an ecological framework. Major theories relevant to domains of development are introduced. Fletcher Teaching Philosophy
Hello and Welcome Gators. I’m Kate Fletcher and my motto for my Principles class is Where Passion and Purpose Meet. I believe this motto is key to understanding who I am as an educator and what you can expect our classroom learning environment to be like. I want you to know that my passion meets my purpose through teaching. I love being an “EduGator,” in particular teaching undergraduate students. I am a Senior Lecturer with a 100% teaching appointment in the Department of Family, Youth and Community Sciences (FYCS). FYCS – a long title with a relatively short description: we are an interdisciplinary applied social science major. What does that entail? Well, I lovingly refer to FYCS as the “Helping People through Prevention Science” major.

Figuring out my passion and purpose took overcoming several major changes as an undergrad, graduating with my bachelor’s, taking a gap year, completing a master’s degree, and finally being asked to teach a class at UF in
FYCS. It wasn’t until the second semester of teaching that I realized my true passion and purpose in life – to educate the next generation of world changers. You are a world-changer who is in pursuit of your passion and purpose. I hope to help facilitate this process through our classroom experiences utilizing experiential learning.

In order to become a world-changer you need to know how to meet people right where they are at, which is my main goal for each class that I teach. To teach you how to “meet people right where they are at,” I believe it is my responsibility to effectively model and implement this goal. Therefore, my teaching objectives are centered on the following: create a student-centered trust-based classroom, create a learning environment where you feel safe, supported, and encouraged to experiment with your passions and purpose. I believe our class content is enriched through service-learning, which will include reflection as a key component. I also believe that by creating a welcoming learning environment and office hours experience for you, you will have a desire to learn and grow in your own knowledge and understanding. I believe that you will want to lean-in. I want our learning environment to be engaging and to provide you with ample opportunities to share your knowledge, be an active learner, and a critical thinker. I believe that you enter the classroom with your own knowledge base and learning style, together we will build on that base by exploring historical, current, and relevant theories, along with concepts and topics in the realm of FYCS. I want you to come alive in your learning, your growth, and your knowledge. I believe that your passions will come alive through course content and service-learning. In following these approaches, I will effectively facilitate a learning environment where collectively, we learn, we grow, we understand, we communicate, and we create a new lens by which to see the world so that you are properly equipped to be a world changer. In doing so, I believe you will discover what you are most passionate about and then pursue that purpose as a world changer.

COURSE OBJECTIVES
This course is an introduction to youth development. To gain a greater understanding of the different domains of development, including social/emotional, cognitive, and physical, are identified, and explored. After completing this course, you will be able to:

- Describe the major milestones and changes in physical, cognitive, social and emotional development that occur in middle childhood, adolescents and adulthood.
- Identify and apply major theories and research that help us understand and explain development throughout this period.
- Observe and assess common issues associated throughout this period of development with attention to the issues that hinder or foster healthy development; apply principles of development in an ecological context when addressing these issues.
- To think critically about issues affecting youth development as they impact your life now and in your future roles as a family member, a citizen, and as a professional.
- Facilitate learning through class discussion, collaboration, and group work.

COURSE EXPECTATIONS
This is a highly interactive class with an exceptionally high level of student engagement. To make the most out of it, attendance is mandatory. Although your attendance is not recorded daily, your attendance and participation are critical factors in your success in our class. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at: https://gatorevals.aa.ufl.edu/students/

Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/ Summaries of course evaluation results are available to students at: https://gatorevals.aa.ufl.edu/public-results/

Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code.
