Numerous textbooks and course materials were reviewed in selecting the best option for this course. *Introduction to Personal Finance: Beginning Your Financial Journey* by Grable and Palmer with WileyPlus was chosen because it offers comprehensive coverage of essential topics like budgeting, debt,

insurance, and investments. The text and accompanying course materials are accessible and engaging, making complex financial concepts easy to understand for students without prior finance knowledge. Required Technology & How to Obtain the Technology

The University of Florida requires all students to have continuous ongoing access to computer hardware and software appropriate to their degree program. Coursework in all degree programs requires the use of a computer and reliable high-speed internet connectivity. Activities related to student life including academic advisement, course registration, official university correspondence, use of library resources, and student financial affairs are predicated on access to a computer with internet connectivity.

It is expected that most students will meet this requirement by owning or leasing a computer appropriate to their degree program. The cost of this requirement may be included in financial aid considerations.

Attendance & Make-up Work

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies. [UF Attendance Policies](#)

Academic Honesty

University of Florida students are bound by the Honor Pledge. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest

standards of honesty and integrity by abiding by the Student Honor Code.” You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see [Student Conduct Code Process](#).

Examples of Academic Integrity Violations

To ensure that you follow the Honor Code and uphold academic integrity, **do not**:

- Sell or share exam questions
- Copy and paste someone else’s work into a discussion post (including GenAI output).
- Participate in any discussion app or group that shares answers and solutions to assignments.
- Reuse previously submitted assignments if not permitted.

Academic Integrity Help

Turnitin Draft Coach is a tool for UF students that provides feedback to help improve your academic writing and research skills. It can help with:

- **Unintentional plagiarism:** The Similarity Check tool compares your text to internet content, student papers, and academic journals to identify matches.
- **Citations:** The Citations Check tool identifies missing citations and references and suggests fixes.
- **Grammar:** The Grammar Guide tool finds grammar mistakes and suggests edits.

Artificial Intelligence Policy

You may use generative AI programs to help generate ideas and brainstorm, unless stated otherwise within individual assignment instructions. However, you should note that the material generated by these programs may be inaccurate, incomplete, or otherwise problematic. Beware that generative AI use may also stifle your own independent thinking and creativity.

You may not submit any work generated by an AI program as your own. If you include material generated by an AI program, it should be cited like any other reference material (with due consideration for the quality of the reference, which may be poor).

Any AI-generated content you use must be properly cited in APA format. For example, an AI citation would look like this:

OpenAI. (2024). *ChatGPT* (Version 4) [Generative AI model]. <https://openai.com/chatgpt>

Course Evaluation Process

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online. Students can complete evaluations in three ways:

1. The email they receive from GatorEvals,
2. Their Canvas course menu under GatorEvals, or
3. The central portal at <https://my-ufl.bluera.com>

Guidance on how to provide constructive feedback is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Software Use

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Services for Students with Disabilities

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the [Disability Resource Center](#). It is important for students to share their accommodation letter with their instructor and discuss their access needs as early as possible in the semester.

Campus Resources

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.
