

## Team Diagnostic

Score your team as a whole on each of these items. You can either do this as a team or each member can complete an individual assessment and then you can discuss them as a whole. The latter is better, but can cause some team members to feel uncomfortable about sharing their ideas about how the team is functioning. However, the point of this assessment is to allow the team as a whole to identify areas where improvement is needed. Use a score of 1 to 5 where 1 means "team is doing very poorly" and 5 means "team is doing very well."
